## Wreck at I-95 and Indiantown Road sends adult, child to St. Mary's

JUPITER — Following a severe traffic accident on Interstate 95 this evening, two patients were flown to St. Mary's Medical Center in West Palm Beach.

Shortly after 9 p.m., Palm Beach County Fire Rescue responded to reports of the wreck on northbound I-95, just past the Indiantown Road exit.

All northbound lanes were closed briefly for the landing of Trauma Hawk, which transported one adult and one child to the hospital. No further information was available.

@Dumbo1, your screen name fits! It's not the "Floridian's" who can't drive, it's all the snow birds from up North. I worked rescue in FL for years and the out-of-towner's are more difficult to drive around than the locals. Just because someone is in FL or owns a home in FL doesn't make them a "Floridian".

And I thought the Long Island Expressway was bad. It's like driving on a country road compared to I-95.

Was actually in a car accident at this location when it was wet a rainy. Just driving and hydroplaned. Hit a semi from one lane to the other and then flipped 3 times. Totalled my vehicle and had a nasty laceration to my arm that is now horribly scared. Be careful out there that road is dangerous!

i love how a report about a traffic wreck brings out all the name-calling, finger-pointing, haters. Never mind that no cause for the wreck has been revealed in the article.

There are good and bad drivers; however, since the cause of the wreck has not been revealed, no one can make assumptions. None of us are immune to being in a car wreck,. An adult and a child were hurt badly. Maybe we need to extend some compassion

and pray for their recovery.

It's because Rick Scott won't pass a "No texting and driving law"  
He doesn't care if someone on a learners permit is texting and driving then crashes into someone.  
The law will never pass until it happens to them and they have a life threatening injury.  
It's the same reason motorcycles aren't required to use headlights or helmets

There are too many people who treat driving on 95 as if they were on the Autobahn....

Even through Abacoa, the speed limit is 20 to 30 mph, people fly through the roads doing 45 to 60...people run stop signs, red lights, and don't yield the right of way at the traffic circles. They all think everything they are doing is more important than what we're doing; HELLO....we're all trying to get from point A to point B, safe - alive; we're all trying to keep our families safe; we're all trying NOT to kill others when we obey the traffic laws...the same thing goes for driving on I-95.
